

HOW TO GET INVOLVED

If you wish to be considered for the trial or you are interested in finding out more, please get in touch by emailing eeftrial@whiterosemaths.com or call us on 01422 433323 to register your interest.

Interested schools will be invited to attend one of our information events where you can learn more before fully committing to the trial.

This is your opportunity to contribute to educational research. The findings will help schools like yours make an informed decision about how to improve early years mathematics outcomes. Participating in the trial will also give you the chance to potentially access the White Rose Maths Reception Jigsaw at a significantly subsidised cost, providing excellent value for schools.

“So many practical ideas which can be implemented quickly and impact on outcomes positively. Thank you.”

THE WHITE ROSE MATHS RECEPTION JIGSAW TRIAL

Don't miss this exciting opportunity to be at the forefront of current research into quality early maths CPD

In conjunction with the EEF and NFER

HIGH QUALITY CPD DELIVERED BY WHITE ROSE MATHS EARLY YEARS SPECIALISTS

5 in-depth CPD sessions (2 hour twilights)

Based on extensive research, these sessions will provide early years practitioners with a thorough understanding of the pedagogy and subject knowledge required to support children's early mathematical development.

Building on the success of our full day EYFS Explored session and our Primary Jigsaw package, we bring you the brand new White Rose Maths Reception Jigsaw.

Access to WRM videos and materials

A chance to see some of the techniques in practice to support practitioners on their journey.

5 half-day visits

Guidance from an experienced early years SLE to support reception teachers in developing effective practice in their own setting.

Journal

A place to record your reflections and progress over the year.

Gap tasks

These follow each session to support the practitioners and maths leads in trialing and developing new practice.

The Reception Jigsaw will be delivered as part of an EEF funded research trial into effective Early Years Mathematics CPD. The trial will start in September 2020 and run for one academic year. It will be independently evaluated by the National Foundation for Educational Research (NFER) and the results used to inform future guidance for school leaders.

Over the coming months we will be recruiting schools who wish to be considered for this exciting project. All schools taking part in the trial will become certified EEF Project Partner Schools.

“It was fantastic, really well thought through with a balance of research, big ideas and practical examples which you could lift and put straight into everyday provision.”
