

ARE YOU A TEACHER IN A SECONDARY SCHOOL?

WHAT KEEPS YOU AWAKE AT NIGHT?

**Marking! I can spend 1 to 2 hours every night just marking books!**

With LbQ, every learner gets immediate feedback to their answers, with teachers able to see in real-time exactly how every child is progressing. This allows you to make decisions for effective interventions and planning... without those late-night marking sessions.

**Finding and creating enough quality content for my class.**

LbQ's amazing team of teacher authors have curated over 1,800 curriculum aligned Question Sets containing over 60,000 questions, including KS3 & KS4 maths, English, biology, chemistry and physics.

**It's incredibly difficult to find and retain teachers for my department. How do I help non-specialists teach my subject accurately and confidently?**

LbQ helps non-specialist staff and NQT's fill in any gaps in their knowledge. The ability to see the answers and the structured feedback to help learners ensures staff know where they are heading, boosting confidence and effectiveness. You can rest assured that everyone in your department is using the latest curriculum structures, learning objectives and vocabulary.

**I can spend up to half a term re-assessing Year 7 pupils - without moving their learning forward.**

LbQ's Question Sets cover every curriculum objective and SATs practise Question Sets, providing an immediate snap shot of ability and gaps in learning or misconceptions. In future, those working with feeder primary schools already using LbQ could have access to this data before term begins, making 'testing' a thing of the past!

**There's not enough time to be creative in class, to offer the pastoral care I'd like or even have time for myself. I want my life back!**

With no marking and easy to find lesson content, LbQ teachers say that they typically save 1 hour per lesson - or 3 to 4 hours per week. At the same time 98% state that their learners have achieved more academically. Think what you could do with that time.

**But is it easy to use? I haven't got time to learn something else!**

100% of teachers who try LbQ say it's easy to use. Why not start today?

BE THE TEACHER  
YOU ALWAYS WANTED TO BE

# ARE YOU SLT IN A SECONDARY SCHOOL?

## WHAT GIVES YOU THE GREATEST HEADACHE?

### Tight budgets! Schools have never had to do more with less!

LbQ is funded by a charity with the aim of increasing equality through education. Our 60,000 questions are free to teachers, but for maximum effect learners should use the Question Sets with their immediate feedback using internet connected devices. LbQ provide affordable tablets for only 25p per day per learner. These devices can be used for LbQ and much more.

LbQ actually saves schools money. There is no wasteful photocopying required and, as our content is constantly updated and improved, there's no need to replace those old text books.

### School results...after all, prospective parents look at league tables!

Feedback is the most effective way to increase learner achievement, with research suggesting additional progress of up to 30% in an academic year. LbQ is based on this principle, with automatically recorded lesson results so your teachers can see how effective their lesson was.

These great insights also create more meaningful communication with parents. Plus...learners love LbQ and they tell their parents so! Some schools have even started after-school or lunchtime LbQ clubs and collaborating with their feeder primary schools. LbQ even encourages learners to behave better in class.

INNOVATOR OF THE YEAR

2019 WINNER

### The new OFSTED framework and the well-being of my teaching staff.

**INTENT** LbQ breaks down the core curriculum subjects of maths, English, biology, chemistry and physics into clear and structured objectives, with scaffolded Question Sets designed to support learning. With comprehensive coverage, LbQ supports your schemes of work.

**IMPLEMENTATION** With high quality content and automatic marking, LbQ enables your teachers to spend more time supporting their learners and planning great lessons. Learners themselves cover more in each lesson – typically 35 questions attempted – and receive immediate feedback for every answer. This ensures a deeper understanding of the subject matter.

**IMPACT** 85% of LbQ teachers believe that the pedagogy makes their lessons more effective and 88% agree that their learners grow in confidence and resilience.

100% of LbQ teachers say that it is easy to implement and, not only do they enjoy using it, but it saves them valuable time, up to an hour per lesson. This reduces teacher stress and allows your staff to have greater control, greater creativity and greater well-being.

## SCHOOL IMPROVEMENT, EVERY LESSON
